New Applications Received - Forms: Count of application forms received in the KidsCare Office including Health-e-AZ applications. An application may be for any number of people in the household but is counted only one time. Forms are counted on the day received.

New Applications Received (Children & Parents): Count of individuals who are requesting KidsCare or HIFA coverage. Requests may be received on application forms described above, as an application to add a new person onto existing cases, or as an automated application sent by DES as the result of the discontinuance of Medicaid eligibility and not approved automatically. Individuals are counted on the day entered into the KidsCare database.

Renewals Processed (Children & Parents): Counts individuals whose application for eligibility, described above, was either approved or denied during the month, except those submitted by DES electronically and approved automatically. The application may have been received during the same month or a prior month.

Changes Processed (Children & Parents): Counts all reported changes processed during the month when the changes were not associated with a new application or the eligibility renewal process. The change may have resulted in discontinuance of eligibility or change of premium, or may have no affect on either premium or eligibility. Each eligible person in the household with the change is counted.

KidsCare Children Referred to DES: Counts children who have applied or who are eligible for KidsCare and are identified as meeting Title XIX requirements. Their applications are forwarded to DES for determination. These children may be included in any of the other counts.
